

The background of the entire slide is a scenic landscape photograph. It features a calm body of water in the foreground, reflecting the sky. In the middle ground, there are rolling hills and a small settlement. The background is dominated by a range of mountains under a sky with soft, colorful clouds in shades of blue, purple, and pink, suggesting a sunrise or sunset. The text is overlaid on this image.

Survey Overview

- Pilot project & unique opportunity for Cowichan Valley region.
- Collaboration between Island Health & Our Cowichan Communities Health Network.
- Collect local-level data on the health and wellness needs and priorities of Cowichan Valley residents ages 18 years and older.
- Results to inform regional health and wellness programs, policies, and services.
- Distinct survey from COVID SPEAK 1-3, with a local-level & rural/remote foci.
- Data collection period: Jul 25th-Oct 3rd, 2023

Survey Process

Sample Size

We heard from **3,459** participants

- including ~90 participants with lived/living experience

Our target was to reach **4,331** participants

We **met 80%** of our target !

Priority Themes

Environmental health

Housing

Mental Health

Substance Use

Transportation

Unweighted Sample

The unweighted sample was **over represented** in:

- older age groups
- participants who identified as woman
- participants with higher education

Weighting process

The data was weighted by **age, gender and education** to reduce bias in the sample

After weighting the data, the sample population matched the actual population based on age, gender and education

Demographics (CVRD)

Race

Employment

Resides in Cowichan Valley

Household (CVRD)

Do you live by yourself?

21%

lived alone

% living alone within each age group:

aged 18-44
years

aged 45-64
years

aged 65-74
years

aged 75+
years

Household (LHA)

Do you live by yourself?

21%

lived alone in the CVRD

Local Health Area (LHA)

Housing (CVRD)

How would you describe your current housing situation?

*Couch surfing, shelter/transition house, tenting, or living outside

Housing (CVRD)

Have you ever experienced unstable housing or been unsheltered?

15%

who currently have stable housing have **experienced unstable housing or have been unsheltered**

Since experiencing unstable housing/being unsheltered:
